DETAILED ACTION

1. This Office Action is responsive to the Amendment filed on 1/7/08. Accordingly, claims 1-18 and 20 are currently pending; and claim 19 is canceled.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-7, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01.

Claim 8 omits essential structural/functional cooperative relationships of elements “DC detector”, “adder”, “delay unit” and “multiplier” to one another for making the claimed system as a complete operative and connective device. The omissions, therefore, render the claim unclear on how said elements are cooperatively connected to one another, e.g., unclear on whether the input of the “adder” is connected/coupled to the output of the “delay unit” or the output of the “adder” is connected/coupled to the input of the “delay unit”, etc.

Claims 2-7, 9 and 10, depended on claim 1, are also rejected with the same reason set forth above for claim 1.

Claim 9 recites the limitation “the predetermined coefficient”. This limitation is lack of antecedent basis. It appears that in the claim, the phrase “The carrier recovery system of claim 1” should be “The carrier recovery system of claim 8”.

Allowable Subject Matter

4. Claims 11-18 and 20 are allowed.

Art Unit: 2611

5. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed on 1/7/08 have been fully considered.

As results, the previous rejections and objections are withdrawn; and claims 8, 11-18 and 20 are indicated allowable as set forth above since the claims have been amended and overcome the previous rejections or objections.

Claims 1-7, 9 and 10, however, are deemed not allowable because of reasons set forth above in this Office Action.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
